Summary

Frontend Developer with a strong foundation in React, TypeScript, and Next.js. Skilled in building responsive, scalable, and user-friendly web applications using modern frontend technologies. Experienced in creating reusable components, managing application state, and integrating APIs to deliver seamless user experiences. Interested in developing high-performance interfaces and collaborating with teams to build impactful digital products.

Skills

Programming & Core Web Technologies: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Tailwind CSS

Frontend Development: Responsive Design, Mobile-First Development, API Integration

UI/UX & Performance: Semantic HTML, Accessibility, Usability Optimization, Performance Optimization

Tools & Workflow: Git, GitHub, Debugging, Version Control

Experience

Frontend Intern

Nov 2025 – Feb 2026

Leafclutch Technologies Pvt. Ltd. (Remote)

Tools Used: React, TypeScript, Axios

- Developed the company's **main website** using **React and TypeScript**, building scalable and reusable UI components to support long-term product growth.
- Implemented **responsive, mobile-first interfaces** ensuring consistent user experience across desktops, tablets, and mobile devices.
- Integrated backend services using **REST APIs with Axios**, enabling dynamic content rendering and smooth data communication between frontend and backend systems.
- Improved maintainability and performance by applying **component-based architecture, clean code practices, and efficient debugging workflows**.

Projects

Leafclutch Main Website | React, TypeScript, Tailwind CSS, Axios

- Developed and deployed the company's **main website** from scratch, implementing a scalable **component-based architecture** using React and TypeScript.
- Built **responsive, mobile-first interfaces** with Tailwind CSS, ensuring consistent and accessible user experiences across desktop, tablet, and mobile devices.
- Integrated backend services via **Axios-based REST API calls**, enabling dynamic data rendering for calculators, comparison tools, and interactive UI components.
- Optimized website performance, implemented reusable components, and applied clean coding practices—resulting in a **fast, maintainable, and visually appealing product**.

MenuMakchha Website | React, TypeScript, Tailwind CSS

- Designed and implemented the **UI/UX** of MenuMakchha.com, providing restaurants with a seamless platform to digitally create, manage, and distribute their menus via QR codes.
- Built **responsive, mobile-first interfaces** using React, TypeScript, and Tailwind CSS, ensuring modern and user-friendly dining experiences across devices.
- Focused on **clean layout structures, accessibility, and intuitive navigation**, improving usability and engagement for restaurant owners and diners alike.
